6.26 A minor home occupation shall be subject to the following:

- .1 Minor home occupations shall be entirely enclosed within a single detached dwelling or secondary suite, and shall not occupy more than 50.0 m² (538.2 ft²) or 20.0% of the floor area of the dwelling unit, whichever is less.
- .2 No minor home occupation shall discharge or emit odours, noxious or toxic matter or vapours, heat, glare, noise, radiation or recurrent vibrations or would result in traffic congestion, electrical interference, fire hazard or health hazard.
- .3 The proprietor of a minor home occupation must reside in the dwelling within or from which the home occupation is operated.
- .4 No persons other than those who reside in the dwelling within or from which the home occupation is operated shall be engaged in the minor home occupation.
- .5 No variation of the residential character or appearance of land or buildings shall be permitted in association with a minor home occupation.
- .6 A minor home occupation shall not generate more than one client or customer visit to the site within or from which it is being operated on any calendar day.

- .7 The following uses are not minor home occupations and are expressly prohibited:
- a) Salvage, storage, repair, maintenance or sales of motor vehicles, trailers, boats or related engines, equipment or parts.
 - b) Tow-truck operations, manufacturing and industrial uses, social escort services, cabinet making, welding or machine shops, meat cutting, commercial animal breeding or parking or storage of industrial, commercial, or construction equipment or materials.
 - c) Sale or storage of any commodity not produced on the premises, except that internet, telephone or mail order sales of such commodities shall be permitted provided that customers do not visit the premises to inspect or to take possession of ordered goods.

Metal Shipping Containers

6.27 Metal shipping containers shall be subject to the following:

- .1 Metal shipping containers shall only be used to store goods or materials that are accessory to the operation of a business or facility located on the parcel on which the containers are located.
- .2 Unless otherwise stated in this Bylaw, the use of metal shipping containers is permitted only in the I1, I2, BP1 and BP2 zones.
- .3 Notwithstanding Section 6.27.2, one metal shipping container shall be permitted in any zone on a temporary basis during the construction of a building or structure on the same lot, on the condition that the container is removed prior to the completion of the building and issuance of occupancy.
- .4 Metal shipping containers shall be sited in accordance with individual zone regulations for the siting of accessory buildings and structures.
- .5 In all zones where metal shipping containers are permitted, the containers shall not be located between the principal building and any street frontage, except a lane.
- .6 Metal shipping containers may only be stacked in the I1, I2, BP1 and BP2 zones, to a maximum of two containers high and subject to the prior issuance of a building permit. Metal shipping containers shall not be stacked on parcels adjacent to Residential zones.
- .7 The maximum number of metal shipping containers located on a lot shall not exceed one for the first 0.4 ha (0.988 acres) of lot area and one for each additional 0.4 ha (0.988 acres) of lot area, to a maximum of 10 containers.

- .8 Where a lot containing one or more metal shipping containers is located adjacent to a lot zoned for residential use, a fence or landscape screen shall be provided along the property line adjacent to the residential lot at a height of no less than 1.8m (6ft) to obstruct the container from view.

Siting

- 6.28** Not more than one principal building shall be located on any parcel, except as otherwise specified in this bylaw.
- 6.29** No portion of a setback area required by this bylaw, between a parcel line and building, shall provide a portion of open space for any building or use on another parcel.

Secondary Suites on Residential Properties

6.30 Relationship between a Principal Dwelling and a Secondary Suite

- .1 A secondary suite shall be entirely contained within a single detached dwelling or half duplex.
- .2 Any structural alterations or additions undertaken to provide a secondary suite shall be done in a manner which does not alter the single detached residential appearance of the area in which it is situated.

6.31 Limitation of Number of Dwelling Units

- .1 Only one Secondary Suite is allowed per residential lot and shall not be allowed in conjunction with a carriage house.

6.32 A secondary suite is subject to the following regulations:

- .2 The Minimum Gross Floor Area is 32 m² (344 ft²)
- .3 The Maximum Gross Floor Area is 90 m² (969 ft²) or 40% of the total net floor area of the principal residence, whichever is less. The maximum gross floor area shall include all accessory structures on the site.
- .4 The Minimum Private Open Space is 15 m² (161 ft²) each for the principal dwelling and for the Secondary Suite.
- .5 Parking and Access Requirements:
 - a) One on-site parking space is required for the Secondary Suite in addition to those spaces required for the principal residence,
 - b) All required parking spaces shall be located on the subject parcel; and
- .6 Secondary Suite access to the outside shall be on a separate exterior wall from access to the principal residence.

Setback Exceptions

6.33 No features shall project into the setback required by this bylaw, except the following:

- .1 Gutters, cornices, sills, bay windows, chimneys, heating or ventilating equipment or other architectural features if the projections do not exceed 1.0 m (3.3 ft) measured horizontally;
- .2 Eaves, unenclosed stairwells or balconies, porches, canopies and sunshades if the projections, measured horizontally, do not exceed:
 - a) 1.5 m (4.9 ft) in the case of front and side yards, or
 - b) 2.0 m (6.6 ft) in the case of rear yards, if the foundations or supports for them do not encroach into any required front yard, side yard or backyard.

6.34 Provincial Public undertakings Regulations

1. An owner, occupier or lessee of land must not, without the consent of the minister, place or cause or allow to be placed any building, trailer, mobile home or other structure within the following distance from the property line fronting on any arterial highway within a municipality or on any highway in unorganized territory:

(a) if a public lane or alley provides secondary access to the property, 3 m;

(b) in any other case, 4.5 m.

2. In addition to the above noted paragraph that speaks to the Provincial Setback requirements, BC Reg. 513/2004 also speaks to the following: Part 3 - Section 13

An owner, occupier or lessee of land at the intersection of

(a) an arterial highway in a municipality or any highway in unorganized territory, and

(b) any other highway, must not grow or place, or cause or allow to be grown or placed, within the sight triangle on that land, any signs or structures or trees or other plants, with horizontal dimension exceeding 0.6 m, unless

(b) the person has the consent of the minister to do so, or

(d) an eye 0.9 m above the surface elevation of one highway can, by looking directly over the sign or structure or tree or other plant, see an object 0.9 m above the surface elevation of the other highway.

Sustainable Building Technologies

6.35 Renewable Energy Systems and Infrastructure

- .1 Renewable energy devices are a permitted use in all zones, under the following conditions:
 - a) There must be an active principal use on a lot in order to locate private renewable energy device on the lot; and
 - b) The production of the renewable energy as well as any device used to produce the energy must comply with all Municipal, Provincial and Federal Bylaws, Statutes and Regulations including but not limited to a Building Permit and BC Building Code Regulations.

6.36 Solar Energy Devices

- .1 In Residential and Commercial Zones, solar energy devices shall be permitted, provided that:
 - a) The device is attached to a principal or accessory building; and
 - b) The device does not extend beyond the outermost edge of the roof to a maximum of 1.0m (3.3ft)
- .2 In Industrial and Institutional Zones, solar energy devices shall be permitted, provided that:
 - a) The device is located on or within either a principal or accessory building, and the device does not extend beyond the outermost edge of the roof; or
 - b) The device is a standalone structure, subject to the zoning requirements for the principal building on the lot where the device is located.

6.37 Geothermal Energy Devices

- .1 Geothermal energy devices are a permitted use in all zones, under the following conditions:
 - a) All above-ground parts of the geothermal energy devices shall be subject to the zoning requirements for an accessory building or structure on a lot;
 - b) The underground geothermal energy components shall be a minimum 3.0 m away from all adjacent parcels; and
 - c) Geothermal energy systems requiring access to watercourses must be authorized by the Province or Federal Government.

6.38 Temporary Shelters

- .1 The installation of temporary shelters shall be permitted only in accordance with the following regulations:
 - a) Temporary shelters must meet requirements for setbacks for accessory buildings and structures for side and rear yards, but shall not be permitted within the front yard setback required for principal buildings on any parcel zoned to accommodate an accessory building or structure.
 - b) Temporary shelters shall not exceed height and size restrictions for accessory buildings in individual zones.
 - c) A maximum of one temporary structure is permitted per parcel.

Exemptions from Parking and Loading Requirements

- 7.1** The regulations contained in this section shall not apply to buildings, structures and uses existing on the effective date of this Bylaw except that:
- .1 Off-street parking and loading shall be provided and maintained in accordance with this section for any addition to any existing building and structure or any change or addition to such existing use.
 - .2 Off-street parking and loading areas in existence prior to the adoption of this Bylaw shall not be reduced below the applicable off-street parking requirements of this section.

Number of Off-street Parking Spaces

- 7.2** The number of off-street parking spaces for automobiles required for any use is calculated according to Table 1 of this Bylaw in which Column I classifies the types of uses and Column II sets out the number of required off-street parking spaces that are to be provided for each use in Column I.
- 7.3** In respect of a use permitted under this Bylaw which is not specifically referred to in Column I of Table 1 the number of off-street parking and loading spaces is calculated on the basis of the requirements for the most similar class of use that is listed.
- 7.4** Where calculation of the total number of parking spaces yields a fractional number, the required number of spaces shall be calculated based on rounding (e.g. 7.5 spaces equals 8 required spaces and 7.4 requires 7 spaces).
- 7.5** Where seating accommodation is the basis for a unit of measurement under this section and consists of benches, pews, booths or similar seating accommodation, each 0.5 m (1.6 ft) of width of such seating shall be deemed to be one seat.
- 7.6** Where more than one use is located on a parcel, the total number of parking or loading spaces to be required shall be the sum total of the requirements for each use.

Location of Parking Spaces

- 7.7** Except for uses in the C2 Zones, required off-street parking spaces shall be located on the same parcel as the use they serve.
- 7.8** In the C2 Zone, off-street parking spaces may be located on another parcel of land located within 125 m (410 ft) of the building or use under the condition that legal assurances, to the satisfaction of the Town of Princeton, are established to ensure that the parcel is used only for parking serving the building or use.

Pay-in Lieu – Automobile Parking

7.9 Where a property is developed within 400 m (1312 ft) of a public off-street automobile parking area owned and operated by the Town, a partial or total reduction of on-site parking requirements is permitted if the owner pays \$5,000 per parking space not provided to be placed in the Town of Princeton’s Parking Facilities Reserve Fund.

Automobile Parking Standards

7.10 Off-street automobile parking spaces must meet the minimum dimensions contained in Table 7.1. The parking dimension factors included in Table 7.1 are illustrated in Figure 7.1.

Table 7.1– Minimum Parking Space and Aisle Dimensions					
Angle (A)	Width (B)	Curb Length (C)	1 Way Aisle Width (D)	2 Way Aisle Width (D)	Stall Depth (E)
0°	2.4m (8.0ft)	6.6m (22.5ft)	3.7m (12.0ft)	6.1m (20.0ft)	2.5m (8.0ft)
30°	2.6m (8.5ft)	5.2m (17.0ft)	3.7m (12.0ft)	6.1m (20.0ft)	4.6m (15.0ft)
45°	2.6m (8.5ft)	3.7m (12.0ft)	3.7m (12.0ft)	6.1m (20.0ft)	5.2m (17.0ft)
60°	2.6m (8.5ft)	3.0m (9.75ft)	4.9m (16.0ft)	6.1m (20.0ft)	5.3m (17.5ft)
90°	2.6m (8.5ft)	2.60m (8.5ft)	6.1m (20.0ft)	6.1m (20.0ft)	4.9m (16.0ft)

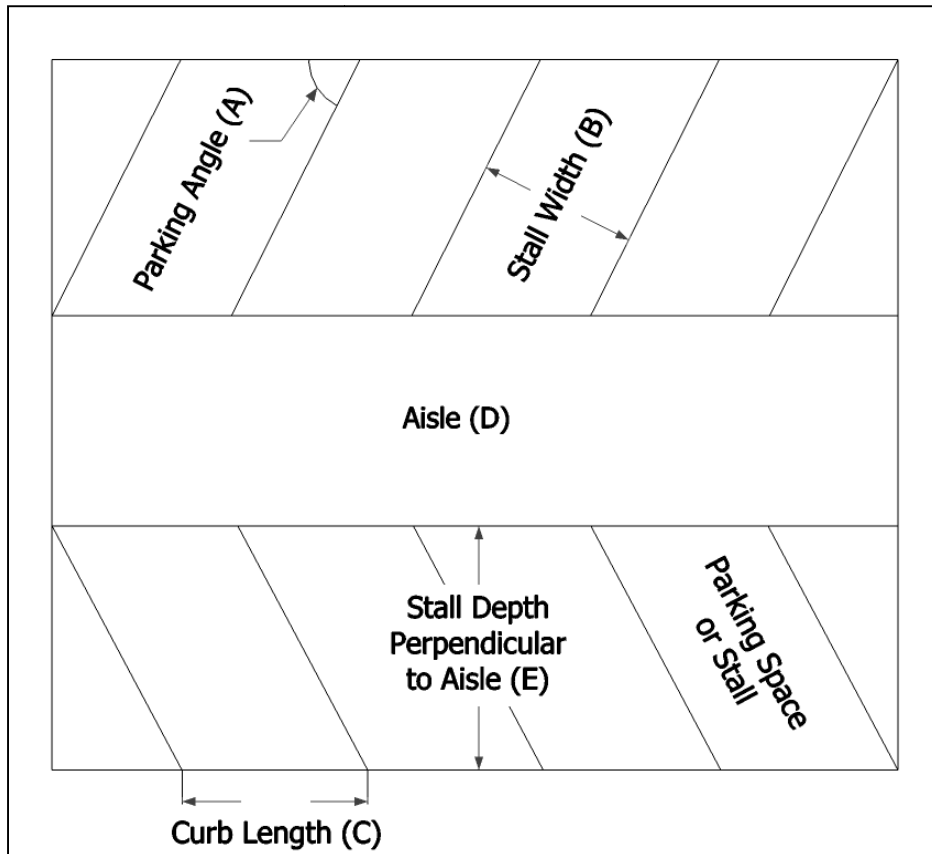

Figure 7.1 – Parking Dimension Factors

- 7.11** Exceptions to the off-street automobile parking standards defined in Section 7.10 are as follows:
- .1 Up to 20.0% of required parking spaces may be 2.4m (7.9ft) wide and 5.0m (16.4ft) long, provided these spaces are grouped and identified for small vehicles use only.
 - .2 Where the arrangement of parking stalls may require parallel parking in a reverse direction, the spaces shall be not less than 6.5m (21.3ft) long.
 - .3 Where one or both sides of a parking space abut a wall or other barrier more than 0.15m (0.5ft) high, an additional 0.3m (1.0ft) width shall be provided to each abutting parking space on the side(s) adjacent to such a barrier to allow easier opening of car doors.
 - .4 Where angle parking stalls are designed pointing parked cars into a landscaped area, up to 0.4m (1.3ft) of vehicle overhang into the landscaped area may be incorporated into the layout design provided the curb protecting the landscaped area is not more than 0.15m (0.5ft) high, and parking space lengths may be reduced accordingly; and
 - .5 In cases where unusual parking layouts or obstructions are encountered, the required parking space and aisle sizes may be increased or decreased to account for special conditions.
- 7.12** Off-street automobile parking and loading spaces shall be surfaced so that all precipitation events are infiltrated into the underlying soil. Surfacing may include porous pavement, pervious unit paver systems, or unit grass pave systems. Impervious asphaltic concrete or cement pavement may be used only if combined with infiltration infrastructure that sufficiently offsets impervious areas so as to result in no net runoff from the site. The thickness and design of the infrastructure will be determined by a professional engineer or professional landscape architect.
- 7.13** All off-street automobile parking areas containing three or more spaces in all zones except FG, RS1, RS2, RD, I1 and I2, shall provide a 1.0m (3.3ft) wide landscaping strip containing grass, shrubs or trees around those portions of the perimeter of the parking area adjacent to streets other than lanes excluding the access and exit points.
- 7.14** Except for parking areas having 3 spaces or less located in a Residential zone, all parking must be provided with adequate curbs to retain vehicles within such permitted parking areas, and to ensure that required fences, walls, hedges or landscaped areas, as well as any buildings and sidewalks will be protected from encroachment by parked vehicles.
- .1 All parking shall be provided with adequate curbs in order to retain all vehicles within such permitted parking areas, and to ensure that required fences, walls, hedges or landscaped areas, as well as any buildings, will be protected from parked vehicles.

- .2 All parking areas shall be surfaced with asphalt, concrete or similar pavement so as to provide a surface that is durable and dust-free and shall be so graded and drained as to properly dispose of all surface water.
- .3 Any lighting used to illuminate any parking areas or parking garage shall be so arranged that all direct rays of light are reflected upon such parking or parking garage, and not on any adjoining premises.

Automobile Parking for Persons with Disabilities (Age-Friendly)

- 7.15** Automobile parking spaces for persons with disabilities shall be:
- .1 Designate as a parking spaces for persons with disabilities using appropriate signage;
 - .2 Included within the calculation of the applicable minimum parking requirements; and,
 - .3 be at least 4 m (13 ft) wide and at least 6.0 m (19 ft) in length.

Bicycle Parking

- 7.16** When any development, building or use requires 10 or more parking stalls, bicycle racks shall be provided at a ratio of 1 bicycle space for every 10 parking spaces required or part thereof.

Parking Restrictions for Commercial Vehicles in Residential Zones

- 7.17** Except when loading, unloading or carrying out a construction or maintenance activity, the following vehicles are not permitted to be parked on a parcel in a Residential zone (except they are permitted in the RC zone):
- .1 Any commercial vehicles larger than 4500 kg gross vehicles weight;
 - .2 More than two commercial vehicles of less than 4500 kg gross vehicle weight each; and
 - .3 Logging, industrial or construction vehicles or equipment.

Ministry of Transportation & Infrastructure Standards

- 7.18** When any new development is commenced or when any existing development is enlarged, or use changed, for properties having or proposing direct access to Highway 3 and/or Highway 5A, vehicle parking and loading spaces shall be provided and maintained by the property owner for parking and loading in accordance with the Ministry of Transportation & Infrastructure standards.

Town Centre Parking

- 7.19 Within the Town Centre area identified shown in Figure 7.2, the number of vehicle parking spaces required will be reduced by one space for every 10 parking spaces required.

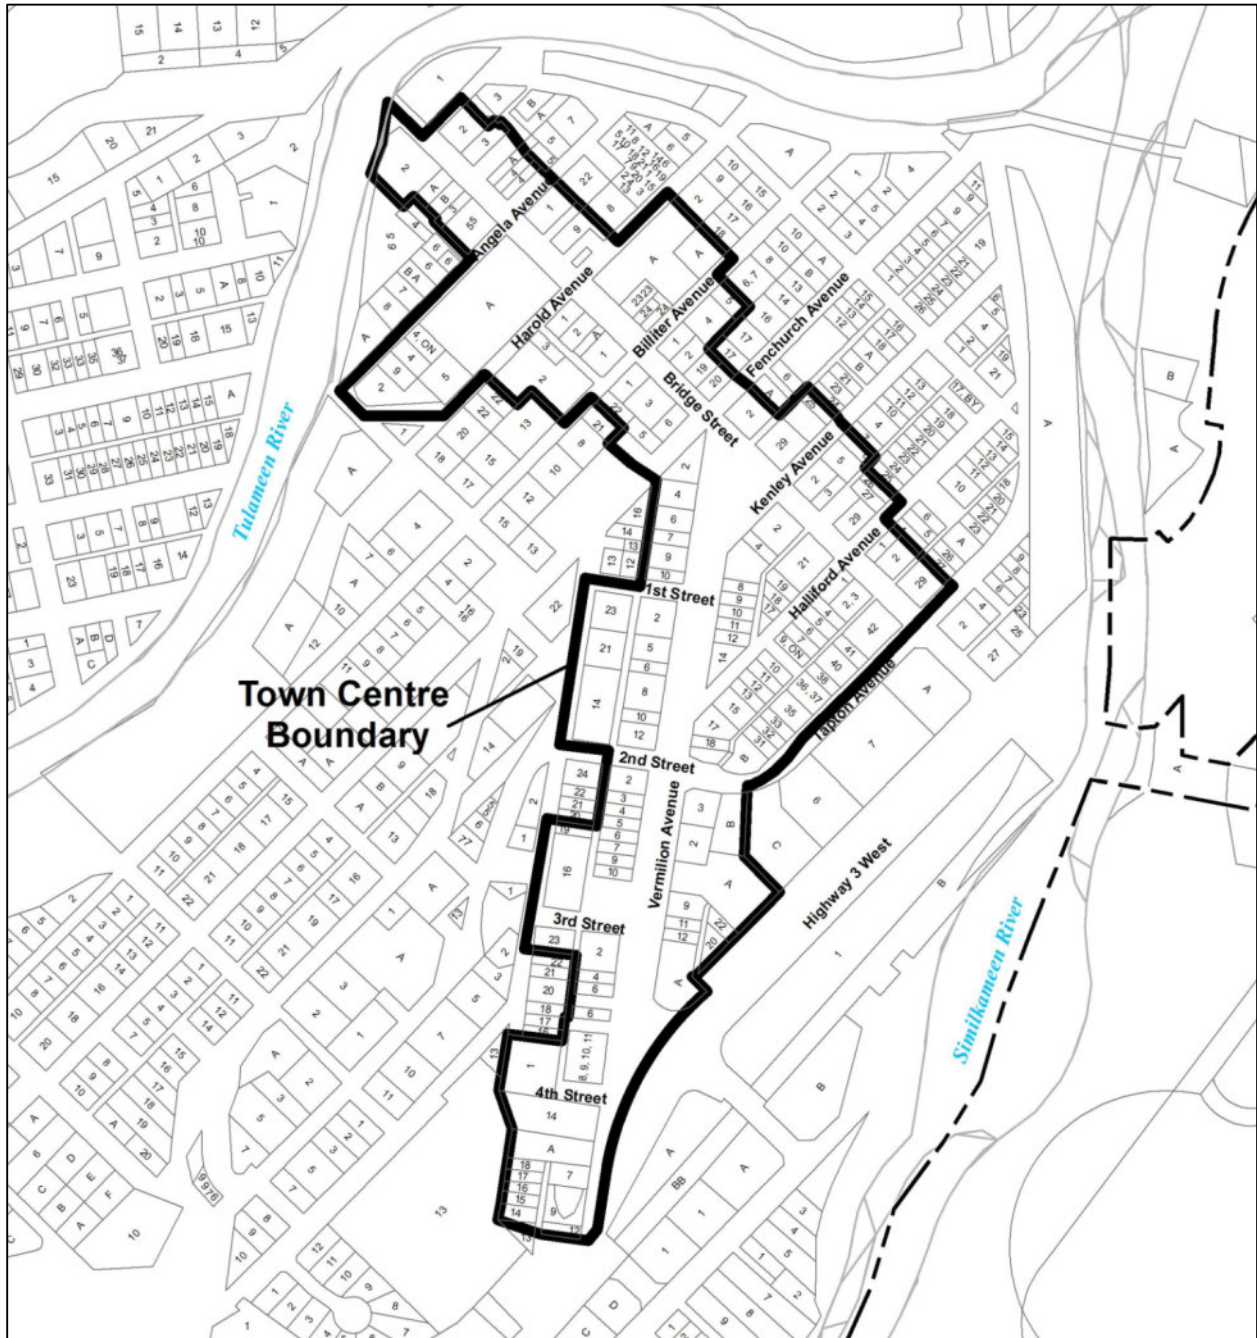

Figure 7.2 – Illustration of Town Centre Boundaries for parking purposes

Off-Street Loading

- 7.20** No use may be undertaken in any zone unless the off-street loading requirements in this Bylaw have been met for that use.
- 7.21** Off-street loading spaces shall be provided as follows:
- .1 for Commercial and Industrial uses, 1 space for the first 500 m² (5,328 ft²) of gross floor area or fraction thereof, and 1 additional space for each additional 2,000 m² (21,527 ft²) of gross floor area or fraction thereof;
 - .2 for Institutional and Public uses, 1 space for the first 3,000 m² (32,292 ft²) and 1 additional space for each additional 3,000 m² (32,292 ft²) of gross floor area or fraction thereof.
- 7.22** In cases of mixed uses, the requirements for off-street loading spaces shall be the sum of the requirements for the various uses computed separately. Required loading spaces for one use shall not be considered as required loading spaces for any other use.
- 7.23** Off-street parking spaces shall not be credited as off-street loading spaces.
- 7.24** Each off-street loading space shall not be less than 9.0 m (30 ft) in length, 3.5 m (12 ft) in width and provide no less than 4.0 m (13 ft) of vertical clearance.
- 7.25** Notwithstanding subsection 4.9.5, in no case shall the length of a loading space be such that a vehicle in the process of loading or unloading shall project into any highway.
- 7.26** Each off-street loading space shall have vehicular access to a highway.
- 7.27** Off-street loading spaces and facilities shall be located on the same parcel as the use served, but:
- .1 not within the required front yard;
 - .2 no closer than 15.5 m (50.9 ft) to the nearest point of intersection of any two road allowances.

Establishment of Zones

8.1 The area within the boundaries of the Town of Princeton shall be divided into the zones identified in Column I and described in Column II of Table 2.

TABLE 2 - ZONES

COLUMN I Zones	COLUMN II Title Elaboration
FG	Forestry Grazing
RC	Country Residential
RS1	Single Family Residential
RS2	Single Family Residential (Small Parcel)
RSM	Manufactured Home Park
RD	Two Family Residential
RM2	Multi-Family Residential (Low Density)
RM3	Multi-Family Residential (Medium Density)
C1	Local Business
C2	Central Business

Zone Title

- 8.2 The correct name of each zone provided for in this Bylaw is set out in Column I of Table 2, Section 8.1 and the inclusion of the names contained in Column II of Table 2, Section 8.1 is for convenience only.

Location of Zones

- 8.3 The location of each zone is established on Schedule A, the Zoning Map of this Bylaw.

Zone Boundaries

- 8.4 Where a zone boundary is shown on Schedule A, the Zoning Map, as following a road or former rail right-of-way or water course, the centreline of the right-of-way or water course shall be the zone boundary.
- 8.5 Where the zone boundary does not follow a legally defined line, and where the distances are not specifically indicated, the location of the zoning boundary shall be determined by scaling from the Zoning Map.

Intent: To accommodate forestry, grazing, agriculture, aquaculture, conservation and limited residential uses.

9.1 Permitted Uses

- .1 agriculture;
- .2 bed and breakfast;
- .3 carriage house;
- .4 dyke and pumphouse and ancillary works;
- .5 fish farm;
- .6 forestry;
- .7 home industry;
- .8 intensive agriculture;
- .9 park, recreation reserve;
- .10 reserve area or habitat set apart for wildlife conservation;
- .11 single detached dwelling;
- .12 tree harvesting, silviculture; and
- .13 accessory uses, buildings and structures.

9.2 Development Regulations

On a parcel located in an area zoned as FG, no building or structure shall be constructed, located or altered, and no plan of subdivision approved which contravenes the regulations set out in the table below in which Column I sets out the matter to be regulated and Column II sets out the regulations.

FG ZONE	COLUMN I	FG ZONE	COLUMN II
.1	Maximum number of single detached dwellings (not including agricultural employees accommodation)		1 per parcel
.2	Maximum density		0.3 units/ha (0.1 unit/ac)
.3	Minimum parcel size		2 ha (5 ac)

.7	Maximum height of: - principal building - accessory building		10 m (32 ft) 7.5m (25 ft)
.8	Minimum frontage		60 m (195 ft)

Intent: To accommodate rural residential housing on larger lots with limited or no services.

10.1 Permitted Uses

- .1 agriculture;
- .2 backyard hens;
- .3 bed and breakfast;
- .4 carriage house;
- .5 home occupation, major;
- .6 public open space recreation;
- .7 public service or utility buildings and structures, with no exterior storage and no garages for the repair and maintenance of vehicles or equipment;
- .8 reserve area or habitat set apart for wildlife conservation;
- .9 single detached dwelling; and
- .10 accessory use, buildings and structures.

10.2 Development Regulations

On a parcel located in an area zoned as RC, no building or structure shall be constructed, located or altered, and no plan of subdivision approved which contravenes the regulations set out in the table below in which Column I sets out the matter to be regulated and Column II sets out the regulations.

RC ZONE	COLUMN I	RC ZONE	COLUMN II
.1	Maximum number of single detached dwellings		1 per parcel
.2	Maximum density		1.25 units/ha (0.5 unit/ac) with community water service, 0.5 units/ha (0.2 units/ac) with no community water service
.3	Minimum parcel size		2 ha (5 ac) with no community sewer service or community water service, 0.8 ha (2 ac) with community water service, but no community sewer service
.4	Maximum parcel coverage		25%
.5	Minimum setback of principal building from: - front parcel line - rear parcel line - interior side parcel line - exterior side parcel line		7.5 m (25 ft) 7.5 m (25 ft) 2 m (7 ft) 4 m (13 ft)

.7	Minimum setbacks for buildings used for keeping of livestock		7.5 m (25 ft) minimum from any property line, 12 m (39 ft) from any dwelling unit
.8	Maximum height of: - principal building - accessory building		10 m (33 ft) 7.5m (25 ft)
.9	Minimum frontage		60 m (195 ft)

SECTION 11:**RS1 – SINGLE FAMILY RESIDENTIAL**

Intent: To accommodate single detached housing on mid-sized, serviced lots.

11.1 Permitted Uses

- .1 bed and breakfast;
- .2 home occupation, major;
- .3 single detached dwelling; and
- .4 accessory uses, buildings and structures.

11.2 Development Regulations

On a parcel located in an area zoned as RS1, no building or structure shall be constructed, located or altered, and no plan of subdivision approved which contravenes the regulations set out in the table below in which Column I sets out the matter to be regulated and Column II sets out the regulations.

RS1	COLUMN I	RS1	COLUMN II
