WHAT'S EXTRAORDINARY ABOUT VENTANA?

The Views: Features a curved design to maximize the incredible city views. One of the first modernist buildings in the Lower Lonsdale redevelopment.

Located near the amenities of Lonsdale Quay and the SeaBus providing access to downtown Vancouver, Ventana is an elegant modernist tower situated – and with floor to ceiling windows – to optimize views of the Burrard Inlet. There is a zen-like simplicity to the natural elements with sleek modern finishes used throughout, including the accented wood lobby interior feature wall.
