RESORT MANAGED

- Pet friendly; Pets approved by strata and cannot be on the property without approval
- Resort managed and must stay resort managed. Owners cannot manage rentals themselves. The fee is 40% and the management takes care of everything from advertising, booking, cleaning, etc. Everything.
- The unit has to stay in the rental pool and cant be taken out of the rental pool
- The owners in the strata currently follow the rule of only using the unit for 3 weeks from May - September & unlimited usage during off season. However, there is no formal bylaw, rule or rental agreement that states you have to follow the 21 days only during peak season. The owners follow this rule to capitalize on rents to ensure the unit pays for itself.
- The stay in your unit, you must give the office 6 mo notice to book your stay and use of management in the motel is still mandatory. The 21 days is not a registered rule so technically you can use it any time but owners follow the 21 day peak season rule to capitalize on rents.
- Owners cannot live in the unit full time
- All the lakefront 2 bedroom units are in the same rental pool and split all rent. So if one unit rents less, all people get less money so it's in all owners best interests to rent the unit. Renting the unit will also cover costs of owning the unit with some profit.
- Owners must book their stay within the unit 6 months ahead as most guests will re-book their stay before they leave so the unit is rented a lot of the time.
- Owners can stay in their unit but must pay \$10/day to stay in your unit.
- All units in the rental pool must be of a similar look. You cannot decorate the unit in any way you want, it must align with the rest of the units and discuss with strata before updating.
- All units in the resort are privately owned and rented, none are owned by the resort.
- taxes (2022) \$ 731.00. Monthly fees \$504.48
