The main floor is designed for families who value both function and finish. The designer Kitchen features quartz counters, stainless appliances, waterfall island, floor-to-ceiling cabinetry, and a custom walk-in pantry with stylish door and backsplash. The Spice Kitchen—a rare find in this market—includes a second stove, sink, and walk-in pantry, ideal for entertaining or cooking fragrant meals. The attached Living Room includes a gas fireplace with sleek black tile surround and custom built-ins, while the front Bedroom offers flexible use as a Den or Office, paired with a nearby 4-piece Bath.

Upstairs, a cozy Bonus Area makes a great reading or homework space. The Primary Suite is a standout with detailed wood accents, an electric fireplace, walk-in closet with custom organizers, and a luxurious 5-piece Ensuite with dual vanities, freestanding tub, and walk-in tile shower. Two more Bedrooms, another full Bath, and a functional Laundry Room complete the upper level. Flooring is carpet-free, with ceramic tile on the main and a mix of vinyl plank and tile upstairs.

The basement is unfinished, giving you the flexibility to build out additional space. Located in walkable Timberlands North, you're just steps from schools, restaurants, grocery stores, medical clinics, the public library, and beautiful walking trails—with easy access to major roads for commuters. This home blends convenience, comfort, and high-end design—everything your family needs, all in one place.
