

641 WEST FRONT ST,
KASLO BC
\$888,000

Kootenay
BC

REAL ESTATE  FAIR REALTY

DETAILS

Nestled above Kaslo Bay, this hybrid timber-frame home showcases breathtaking views of Kaslo Bay and Kootenay Lake. Designed for easy living, it features low-maintenance landscaping and a superb outdoor area perfect for entertaining or simply taking in the scenery.

The ground-level entry welcomes you into a spacious foyer with a wood stove, ample storage, a separate guest suite (perfect for guests or rental) a laundry area, and a convenient 3-piece bath. Upstairs, the main level boasts an open-concept living, dining, and kitchen area with a cozy propane fireplace. A full bathroom and a bedroom complete this level.

The top floor opens to a versatile sitting area with office space, a master suite, 4-piece ensuite and a third bedroom. Every detail of this home reflects exceptional craftsmanship and meticulous care, making it move-in ready and a joy to experience.

Whether you're seeking a permanent residence or a vacation retreat, this unique home offers flexibility. Enjoy it full-time or seasonally immersing yourself in the Kootenay lifestyle.

PROPERTY DISCLOSURE STATEMENT

PROPERTY DISCLOSURE STATEMENT RESIDENTIAL

PAGE 1 of 4 PAGES

Date of disclosure: 2024-11-26

The following is a statement made by the Seller concerning the premises located at:

ADDRESS: 641 West Front Kaslo

VOG1M0 (the "Premises")

THE SELLER IS RESPONSIBLE for the accuracy of the answers on this Property Disclosure Statement and where uncertain should reply "Do Not Know." This Property Disclosure Statement constitutes a representation under any Contract of Purchase and Sale if so agreed, in writing, by the Seller and the Buyer.	THE SELLER SHOULD INITIAL THE APPROPRIATE REPLIES.			
	YES	NO	DO NOT KNOW	DOES NOT APPLY

1. LAND

A. Are you aware of any encroachments, unregistered easements or unregistered rights-of-way?		X		
B. Are you aware of any existing tenancies, written or oral?	X			
C. Are you aware of any past or present underground oil storage tank(s) on the Premises?		X		
D. Is there a survey certificate available?		X		
E. Are you aware of any current or pending local improvement levies/charges?		X		
F. Have you received any other notice or claim affecting the Premises from any person or public body?		X		

2. SERVICES

A. Please indicate the water system(s) the Premises use: <input checked="" type="checkbox"/> A water provider supplies my water (e.g., local government, private utility) <input type="checkbox"/> I have a private groundwater system (e.g., well) <input type="checkbox"/> Water is diverted from a surface water source (e.g., creek or lake) <input type="checkbox"/> Not connected Other _____				
B. If you indicated in 2.A. that the Premises have a private groundwater or private surface water system, you may require a water licence issued by the provincial government.				
(i) Do you have a water licence for the Premises already?				X
(ii) Have you applied for a water licence and are awaiting response?				X
C. Are you aware of any problems with the water system?				X
D. Are records available regarding the quality of the water available (such as geochemistry and bacteriological quality, water treatment installation/maintenance records)?				X

D. Are you aware of any existing or proposed archaeological restrictions affecting the Premises (including the Premises being designated as an archaeological site or as having archaeological value under applicable law)?		X		

5. ADDITIONAL COMMENTS AND/OR EXPLANATIONS (Use additional pages if necessary)

Energy rating report attached. We can safely assume the heatpump reduced the rating by a lot. It is the number one recommendation by the assessor. The smaller the number, the better the energy saving.

The carport is built on the registered easement, via verbal permission from neighbour. Carport was built with the mind of ease of dismantling and is wide/tall enough for vehicles to go through so it does not impede access to the easement.

The Seller states that the information provided is true, based on the Seller's current actual knowledge as of the date on page 1. Any important changes to this information made known to the Seller will be disclosed by the Seller to the Buyer prior to closing. The Seller acknowledges and agrees that a copy of this Property Disclosure Statement may be given to a prospective Buyer.

PLEASE READ THE INFORMATION PAGE BEFORE SIGNING.

ENERGY RATING

Address: 641 West Front St., Kaslo, BRITISH COLUMBIA, V0G 1M0

HOMEOWNER INFORMATION SHEET

ENERGUIDE

Your EnerGuide* rating and this report are based on data collected and, where necessary, presumed from your evaluation. Rating calculations are made using standard operating conditions.

Rating: 97 gigajoules per year (GJ/year)

Heated floor area: 221.0 m² (2378.8 ft²)
 Rated energy intensity: 0.44 GJ/m²/year
 Evaluated by: Len Freeth
 Quality assured by: Ecofitt
 File number: 9D05D50039
 Data collected: November 12, 2019
 Year built: 2003

NRCan.gc.ca/myenerguide

HOW YOUR RATING IS CALCULATED:

- I. Rated annual energy consumption 97 GJ/year
 II. Minus renewable energy contribution - 0 GJ/year
 Equals your **EnerGuide rating** = **97 GJ/year**

I. Your rated annual energy consumption is the total amount of energy your house would use in a year based on the EnerGuide Rating System standard operating conditions. For your house, this includes 16.21 GJ of passive solar gain.

Energy Sources	Rated Consumption (GJ/year)	Equivalent Units (per year)	Greenhouse Gas Emissions (tonnes/year)
Electricity	83	23073 kWh	0.3
Wood	14	1 t	0.4
Total	97		0.7

II. On-site renewable power generation systems can offset some or even all of your home's energy consumption. Renewable energy contributions are factored differently for your rating and your greenhouse gas emissions calculations.¹

On-Site Renewable Energy	Estimated Contribution (GJ/year)	Equivalent Units (per year)	Offset Greenhouse Gas Emissions (tonnes/year)
Electricity	0	0 kWh	0.0
Solar water heating	0	0	0.0
Total	0		0.0

YOUR RATED GREENHOUSE GAS EMISSIONS CALCULATION:

Total greenhouse gas emissions 0.7 tonnes/year
 Minus emissions offset by on-site renewables - 0.0 tonnes/year
 Equals your **rated greenhouse gas emissions** = **0.7 tonnes/year**

HOW YOUR RATED ENERGY IS USED:

The chart below represents the breakdown of rated annual energy consumption in your home under standard operating conditions. You can use these figures as a guide to help identify where you can lower home energy costs through proper home maintenance, efficient home operation, energy efficiency renovations or equipment replacement.

WHERE YOUR HOME LOSES HEAT:

Houses lose heat through their exterior shell, or building envelope. The chart below shows where and how your home loses heat. The quality and upkeep of your home can have a major impact on the amount of energy your heating and cooling systems use annually.

*EnerGuide is an official mark of Natural Resources Canada. Refer to the glossary section for an explanation of relevant terms.

Kaslo

Kaslo, with a population of just 1,000 is the largest community on the main body of Kootenay Lake. Kaslo is nestled in a valley, surrounded by a lush forest and Kootenay Lake. Downtown is thriving with artisans and artists, and a beautiful park with pristine beaches lines the village. Heritage buildings have been lovingly restored, along with the S.S. Moyie, the world's oldest intact sternwheeler.

The area's waterways and surrounding mountains provide plenty of opportunity for outdoor adventure.

Outdoor Recreation

Explore Kootenay Lake in a powerboat, sailboat, kayak, or canoe. Renting a houseboat from Kaslo's Shipyard's fleet is another option. Go hiking on groomed trails or wilderness terrain in provincial parks. There are no less than five of these (and one rugged conservancy) nearby, including the stunning Kokanee Glacier Provincial Park. Boating, sport fishing, swimming, water-skiing, kayaking, canoeing, scuba diving, hiking, mountain & tour biking, ATV touring, golfing, horseback riding, cross-country skiing, snowmobiling, cat-skiing, heli-skiing, paragliding.

Weather	
Average Yearly Rainfall (mm): 698	Average Yearly Snowfall (cm): 188
Average Highest Temperature (c): 25	Average Lowest Temperature (c): -5

COMMUNITY INFORMATION

Recreational Facilities

Facilities in and around Kaslo include a 9-hole golf course, Ice Arena for public skating, hockey and curling, a number of Provincial Parks and campgrounds, a skateboard park, public beaches, tennis courts and riding arena.

Historic and Heritage Sites

Kaslo village itself is home to several important historic and heritage sites including the SS Moyie, the world's oldest intact passenger sternwheeler. Its restoration has been passionately pursued by spirited volunteers for more than half a century. Abroad the SS Moyie enter a world of classic Victorian design and engineering and learn a whole lot about Kootenay Lake history.

Festivals and Events

Give a big round of applause to this tiny community for hosting an exceptionally charming jazz event.

The Kaslo Jazz Festival draws music-lovers from far and wide in August, as people come to see live music from international swing, blues and jazz musicians. The music festival has been staged every August since 1991. Audiences line the beach to enjoy incredible jazz music performed from a floating stage.

The IDidaRide and Run is another popular event for keen runners and mountain bikers, held in August. The event offers five events—three rides and two runs. The 41km is a ride only, while the 20km and 8.5km are ride or run events.

May Days is a century old Kaslo tradition, featuring maypole dancing, loggers' sports, and a parade that offers double the fun by circling the village centre twice.

Geography

The village of Kaslo is the largest community located on the main body of Kootenay Lake. Most of the village of Kaslo sits on the floodplain formed by the outflow of the Kaslo River. The remainder of the village is located on bench land above the downtown core. The village is framed by the Purcell Mountain Range to the east and the Selkirk Mountain Range to the west. Mount Loki (2,779m/9,117ft) rises dramatically across Kootenay Lake and is a popular hike for locals. The Selkirks are home to the Goat Range and Kokanee Glacier Provincial Parks. Both parks offer a full range of four-season recreational opportunities.

Economy

Overall, the average employment rate of Kaslo, BC is growing at an average of 0.14% per year over the past 15 years. In the last two census, its employment rate grew by 9 per cent, an average growth rate of 4.57% from 2011 to 2016. A growing employment rate signals that competition between job applicants are intensifying and that finding a job is becoming harder. It can also mean lower tax revenues for governments in the next few years, as people will have lower incomes to be taxed.

Government

The Village of Kaslo is governed by a Mayor and four councillors and is administered by three professional staff.

Municipal Garbage Collection: <http://www.kaslo.ca/content/municipal-waste-collection>

Municipal garbage collection is in on Tuesdays. Your garbage must be out by 8:00am to guarantee collection.

Bags must have an orange tag sold by either the Village Office or Kaslo Husky (Mohawk). The cost of a tag is the same as the tipping fee for a bag of residential garbage at the RDCK* transfer station. *There is no minimum number of bags covered by taxes or annual user fees. You must buy tags for all garbage that you put out.

Recycle BC blue container curbside collection is at no additional fee and is not funded through user fees or property taxation.
